

Calendar Year 2019 Report on the Utilization of Breast Cancer Research and Education Funds

Calendar Year 2019 Report on the Utilization of Breast Cancer Research and Education Funds

State Finance Law §97-yy requires the New York State Department of Health (Department) to submit an annual report to the Legislature, the State Comptroller and the public regarding how the monies of the Breast Cancer Research and Education Fund (Fund) were utilized during the preceding calendar year. The statute specifically requires the Department to report on the following five items:

- i. The amount of money disbursed from the Fund;
- ii. Recipients of awards from the Fund;
- iii. The amount awarded to each recipient;
- iv. The purposes for which such awards were granted; and
- v. A summary financial plan for the current and succeeding fiscal years.

The enclosed table represents a snapshot of each of these requirements.

A total of \$1,763,965.36 was disbursed during calendar year 2019 to nineteen breast cancer research contractors: ten (10) were awarded funding through the “Peter T. Rowley (Round 3)” RFA (Request for Applications), two were awarded funding through the “Patricia S. Brown (Round 5)” RFA, and seven were awarded funding through the “Peter T. Rowley (Round 4)” RFA. Additionally, funding was disbursed to one miscellaneous services contract for merit peer review of scientific and education research applications.

The purpose of the Rowley contracts is to stimulate and support research related to breast cancer biology, causation, prevention, detection or screening, treatment (including treatment of its effects), survivorship or cure. Any investigative approach appropriate to the application topic may be pursued, including, but not limited to, basic, translational, clinical, demographic, mapping, epidemiological, environmental, behavioral or psychosocial research. The purpose of the Brown contracts is to encourage the development and implementation of innovative pilot projects in breast cancer risk reduction education and propose the design of new educational strategies to elicit behavior changes intended to reduce specific risk factors associated with developing breast cancer. The purpose of contracts from Healthcare Practitioner Breast Cancer Research Education Projects is to stimulate breast cancer education research projects that will develop communication skills and educational programs targeted to certain healthcare practitioners, with the goal of facilitating partnerships with and fostering breast health literacy among their patients.

The Health Research Science Board expects outcomes of supported activities to benefit subsequent breast cancer research or education efforts, breast cancer public health policy and the continuum of breast cancer care.

Three Request for Applications were issued in 2019: Peter T. Rowley Breast Cancer Scientific Research Projects, Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects and Healthcare Practitioner Breast Cancer Education Research Projects.

<u>Peer Review Contract; resulting from RFP #15666</u>		
C030164	American Institute of Biological Sciences	\$ 298,838.47
	Total Disbursed	\$ 1,763,965.36

(ii) RECIPIENTS OF AWARDS

	<u>Institution</u>	<u>Principal Investigator</u>
<u>Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 6): RFA #17988</u>		
ACCEPTED	Research Foundation for SUNY - Buffalo	Laurene Tumiel-Berhalter, PhD
<u>Healthcare Practitioner Breast Cancer Education Research Projects (Round 2): RFA #17989</u>		
ACCEPTED	New York University	Victoria Raveis, PhD
ACCEPTED	Rochester Institute of Technology	Elizabeth Ruder, PhD, MPH

**Calendar Year 2019 Report on the Utilization of Breast Cancer Research and Education Funds
January 10, 2020**

Peter T. Rowley Breast Cancer Scientific Research Projects (Round 5): RFA #17986

ACCEPTED	Albert Einstein College of Medicine	Maja Oktay, MD, PhD
ACCEPTED	Columbia University	Piero D. Dalerbo, MD
ACCEPTED	Research Foundation for SUNY - Buffalo	Heather Ochs-Balcom, PhD
ACCEPTED	Albert Einstein College of Medicine	David Entenberg, PhD
ACCEPTED	University of Rochester	Zhenqiang Yao, MD, PhD

(iii) AMOUNT AWARDED

	<u>Institution</u>	<u>Amount Awarded</u>
<u>Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 6): RFA #17988</u>		
C34921GG	Research Foundation for SUNY - Buffalo	\$ 270,000.00

Healthcare Practitioner Breast Cancer Education Research Projects (Round 2): RFA #17989

C34922GG	New York University	\$ 260,494.00
C34923GG	Rochester Institute of Technology	\$ 268,334.00

Peter T. Rowley Breast Cancer Scientific Research Projects (Round 5): RFA #17986

C34924GG	Albert Einstein College of Medicine	\$ 360,000.00
C34925GG	Columbia University	\$ 359,899.00
C34926GG	Research Foundation for SUNY - Buffalo	\$ 343,354.00
C34927GG	Albert Einstein College of Medicine	\$ 360,000.00
C34928GG	University of Rochester	\$ 338,741.00
	Total Funded	\$ 2,560,822.00

(iv) PURPOSE OF NEW AWARDS

The purpose of contracts resulting from RFA #17988, "Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 6)" is to encourage the development and implementation of innovative pilot projects in breast cancer risk reduction education with rigorous evaluation and revision. Funded awards propose the design of new educational strategies to elicit behavior changes intended to reduce specific risk factors associated with developing breast cancer.

The purpose of contracts resulting from RFA #17989, "Healthcare Practitioner Breast Cancer Research Education Projects (Round 2)" is to stimulate breast cancer education research projects that will develop communication skills and educational programs targeted to certain healthcare practitioners, with the goal of facilitating partnerships with and fostering breast health literacy among their patients.

The purpose of contracts resulting from RFA # 17986, "Peter T. Rowley Breast Cancer Scientific Research Projects (Round 5)" is to stimulate and support research related to breast cancer biology, causation, prevention, detection or screening, treatment (including treatment of its effects), survivorship or cure. Any investigative approach appropriate to the application topic may be pursued, including, but not limited to, basic, translational, clinical, demographic, mapping, epidemiological, environmental, behavioral or psychosocial research.
