POTABLE WATER

POTABLE WATEK	Description	Ampulization Details
Sample Name	Description	Details
	Ten samples for qualitative	
	determination of total coliform	
	(Presence/Absence testing) and,	Ten, 100 mL, full
TOTAL COLIFORM /	if present, the determination of	volume aqueous
E. COLI	E. Coli	samples
HETEROTROPHIC		One, 100 mL, full
(STANDARD) PLATE	One sample for enumeration of	volume aqueous
COUNTS	heterotrophs	samples
		One, 100 ml, full
		volume aqueous
		samples for
	One sample for quantitative	quantitative
E. COLI	enumeration of E. Coli	enumeration
NON-POTABLE WATER		Ampulization Details
NON-POTABLE	Description	Ampulization
NON-POTABLE WATER		Ampulization Details
NON-POTABLE WATER	Description	Ampulization Details one, 100 mL, full
NON-POTABLE WATER Sample Name	Description One sample for the enumeration	Ampulization Details one, 100 mL, full volume aqueous
NON-POTABLE WATER Sample Name	Description One sample for the enumeration	Ampulization Details one, 100 mL, full volume aqueous sample
NON-POTABLE WATER Sample Name	Description One sample for the enumeration of total coliform	Ampulization Details one, 100 mL, full volume aqueous sample one, 100 mL, full
NON-POTABLE WATER Sample Name TOTAL COLIFORMS	Description One sample for the enumeration of total coliform One sample for the enumeration	Ampulization Details one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous
NON-POTABLE WATER Sample Name TOTAL COLIFORMS	Description One sample for the enumeration of total coliform One sample for the enumeration	Ampulization Details one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous sample
NON-POTABLE WATER Sample Name TOTAL COLIFORMS	Description One sample for the enumeration of total coliform One sample for the enumeration of fecal coliform	Ampulization Details one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous sample one, 100 mL, full
NON-POTABLE WATER Sample Name TOTAL COLIFORMS FECAL COLIFORMS	Description One sample for the enumeration of total coliform One sample for the enumeration of fecal coliform One sample for the enumeration of fecal coliform	Ampulization Details one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous
NON-POTABLE WATER Sample Name TOTAL COLIFORMS FECAL COLIFORMS	Description One sample for the enumeration of total coliform One sample for the enumeration of fecal coliform One sample for the enumeration of fecal coliform	Ampulization Details one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous sample one, 100 mL, full volume aqueous samples
